

A.W. Campbell Conservation Area 1

The Millennium Trail takes the hiker through a 3.3 km loop around the A.W. Campbell Conservation Area. The trail traverses deciduous forest, floodplain and meadow and treats visitors to a host of wildflowers and interesting tree species such as the blue ash. Several side trails can be taken for shorter walks. The conservation area includes a campground and the Campbell House Museum (open for special occasions), and is home to the annual Maple Syrup Festival in March.
