E-mail: bweber@middlesex.ca

CERV Middlesex capitalizes on local volunteers' knowledge of their area, and on the "can-do" spirit and compassion which Ontarians demonstrated during the Ice Storm in 1998, the Blackout in 2003 or the Highway 402 Snow Storm in 2010. By focusing on communities, it allows **CERV** Team Members to best meet local needs and maximize the potential for quick deployment and efficient and organized response in an emergency.

Middlesex County began training **CERV** volunteers in 2007; at the same time, the Middlesex-London Health Unit founded the **CERV MLHU** Team, for volunteers who reside in the City of London.

Well-trained **CERV** Volunteers will be a great help to our County & municipal staff when emergencies strike. **CERV** Team members also help to promote local emergency preparedness and provide assistance at major community events.

What are the requirements of a CERV Middlesex Volunteer?

1. **CERV** Team Members must be at least 21 years of age and have a valid Ontario Driver's License. Access to a vehicle is necessary.
2. **CERV** Team Members must reside in a Middlesex County community (not the City of London.)
3. **CERV** Team Members will be interviewed, and agree to undergo a criminal record check with vulnerable sector screening.
4. **CERV** Team Members agree to prepare themselves, their homes and their families for emergencies.
5. **CERV** Team Members are willing to make a three-year commitment to the program, to assist as volunteers anywhere in Middlesex County during emergencies.
6. **CERV** Team Members are asked to attend approximately 60 hours of training in the first year, and 30 hours of training per year during the next two years.
7. **CERV** Team Members understand that training will begin in January 2017, and will take place in various locations within Middlesex County.
8. Access to e-mail and use of a cell phone is very important for **CERV** Team Members.

CERV Middlesex: MAKE A DIFFERENCE!

CERV Middlesex stands for Community Emergency Response Volunteers, which is a county-wide program to improve safety and security in our communities – large or small, urban or rural.

Operating at the grassroots level, **CERV Middlesex** trains volunteers to help within their own communities by preparing for emergencies based on local risks. **CERV** volunteers meet the challenge when an emergency strikes, be it a flood, a severe storm, a major power failure or another unexpected hazard.

CERV Middlesex volunteer training includes:

- Emergency & disaster response skills
- Volunteer health & safety
- Basic fire safety & prevention
- Emergency First Aid & CPR-C, including use of a Public Access Defibrillator
- Reception Centre Operations
- Registration & Inquiry Service training
- Introduction to severe weather
- Personal/family emergency preparedness
- Verbal De-escalation & Personal Safety
- Safe Food Handling
- N-95 Respirator Fit Testing
- Participation in emergency exercises

The **CERV Middlesex** Program will hold interviews in January 2017, and those volunteers selected for the program will begin training that month. When Middlesex County recruits new **CERV** volunteers, special skills are not the first priority, just a willingness to learn new skills and meet the challenge when members of our community need help.

**CERV Middlesex Volunteers really do
MAKE A DIFFERENCE!**
