

EMERGENCY MEASURES

Policy No.: FEH001
Issue date: February 27, 2006
Revised: July 2014, May 2022
Issued by: Environmental Services Manager
Approved by: Administrator

HYDRO OUTAGE

The home is supplied with full emergency backup power from the diesel generator. All lighting and equipment should function normally.

Procedure:

Report any problems to Maintenance.

Maintenance staff shall monitor fuel levels and test the generator on a scheduled basis to ensure uninterrupted operation of the generator.
